

Built and Natural Landscape Impacts Subcommittee
Kittery Climate Adaptation Committee
Minutes
4:30 PM, October 1, 2019

Kittery Town Hall, Conference Room A

- I. Present; K. Fellows; N. Lovett; J. O'Connell; J. Spiller; C. Wake
- II. Approved Minutes - Moved K. Fellows, seconded N. Lovett.
Unanimous
- III. Status of Maine Flood Resilience Checklist – waiting on decision of Island Institute on funding.
- IV. Sustainability Fellows – UNH Dual Major. Could have a team of 3 or 4 UNH undergraduates, starting spring semester, work on findings from the checklist. Currently, Durham working with students, using Second Nature Framework, essentially a vulnerability framework, with 5 capitals each with 10 indicators (measurable metrics): infrastructure; ecosystem; social capital (institutions); human resources (health and wellness); and financial. Strong interest in pursuing this option. Next meeting: Share report of Second Nature framework (Cameron).
- V. Island Institute Sept 28 meeting: Who Pays and When. Need to pursue resources regionally; also need good data (digitized parcels to measure property impact). Kittery has an RFP out for GIS system that provides that information.
- VI. Consider inviting Peter Britz – sustainability coordinator for Portsmouth.
- VII. Next meeting – November 12 4:30 PM.
- VIII. Adjourn at 5:30 pm. Moved by J. O'Connell, seconded by N. Lovett – Unanimous.
