

Built and Natural Landscape Impacts Subcommittee Approved Minutes
Kittery Climate Adaptation Committee
4:30 PM, February 1, 2022
Remote

- I. Present: K. Fellows, R. Ledgett, N. Lovett, J. Spiller, C. Wake. K. Connor, KP&D. Abbie Lyons, PREP.
- II. Approve Minutes for 1.04.22: Moved R. Ledgett, seconded N. Lovett. Unanimous.
- III. Project Updates: Next steps on flood hazard mapping project. Communicating with property owners whose land may be affected. Move carefully to educate about the risk trade-offs. Kathy received the shape file for Kittery from SMPD project on economic resilience. At 1.5 to 3 ft slr plus storm surge, approximately 3.2% of buildings at risk (in line with projection of UNH students). Need to coordinate with Planning Board and seek their guidance and support. Schedule a workshop with them at some point. Options typically funding to raise or buy property out. Discussion about ordering of zoning maps: flood plain, then our coastal hazard. Solar ordinance – Planning Board reviewing; going to Council in spring.
- IV. Next meeting: 4:30 pm, **March 1, 2022**
- V. Adjourned: Moved R. Ledgett, seconded N. Lovett. Unanimous. 5:25 pm.

Approved: 03.01.22
