

Energy Efficiency and Sustainability Subcommittee Minutes  
October 12, 2021 5:30 pm  
Hybrid Meeting - Conference A - ZOOM, Kittery Town Hall

- I. Present: Erin Kempster, David Gibson, Lily Watts, Lise Laurin
- II. Using Clearpath Software – Saw work done by Judy (thanks, Judy!). Refreshed ourselves on where the reports are stored and how to get to the recording of last meeting. Reviewed results and had questions:
  - Why are the field lighting impacts so low? Especially KCC with a lot of lights frequently on?
  - What is the solid waste impact? Why is it so high in comparison with everything else? Why is there no credit for electricity generation?
  - Should we be including water?
  - Why is septic included? It is the only private system included.
  - Why is there no methane from our wastewater treatment plant?
- III. Next Meeting: November 9, 2021
- IV. Adjourned: Moved L. Laurin, seconded D. Gibson. 6:25 pm
