Action: Review amendment. Schedule a public hearing. The proposed amendments provide clarity concerning restrictions related to non-stormwater discharges required under the Town's MS4 obligations.

Chair Grinnell opened the public hearing. There being no public in attendance, the Chair closed the public hearing.

The Town's Shoreland/Environmental Resource Officer, Jessa Kellogg, was present to explain non-stormwater discharge for chlorinated swimming pools as requested by the Board from a previous meeting. Ms. Kellogg explained an owner can use a simple test to determine the chlorine level of a pool. The test strip will read zero. Ms. Kellogg explained she checked with an MS4 consultant and discovered other communities do not have an actual number listed in the amendment. Ms. Driscoll-Davis stated her concern of using a zero because the Town's water has chlorine. Ms. Kellogg commented after two days of using chemicals the reading should be zero and pools can be drained. There is no guidance from the State for salt water pools. She also stated bromine and chlorine are treated similarly.

After further discussion, the Board made the following amendments:
