The Kittery Business Center (72 rt. 236) would be very happy to see the sewer line extended, and would no doubt take advantage of the service.

Good morning,

I "attended" your Feb 8 meeting and was very impressed with the great work being done on behalf of Kittery residents.

Re: your cookbook project, I wonder if a particular recipe (a "simple" one such as a soup) might be produced on a large scale (reaching out to our restaurant community) and sold to the community (in a COVID-safe manner, pre-ordered/paid for.) This would be another way to extend the reach of the Celebration, allowing us to share in a "taste" of history! Perhaps a recipe card for the soup is included in the purchase price.

Wishing you the best. Thank you very much for your efforts.

Christina White
