TO: Town of Kittery Council / Town Manager AND Public -

Kindly read the following during Town Council Meeting for public advantage.

Please stop the ongoing destruction of old Rice Public Library building, now under a money making Corporation creation.

The old artistic library building was not made to have attachments.

Old Rice Library building is being abused, disrespected, and destabilized with an architectural monstrosity attempting to attach to the old jewel and breaking into it's sides.

You wouldn't allow to dig in and attach a structure to Michelangelo's statue work of art, would you ?

Of course a gentle green public park for viewing the old library would have been sane, but now it's too late unless you stop the destruction now. Only an earthquake will do more damage to our so called "Kittery Jewel".

Stop disfiguring and destabilizing our old brick Rice Library by the new money making "Corporation".

It's an insult to residents for the new Library Corporation to have already taken millions of our dollars and now asking for more money constantly..

Another issue is the abandonment and ignoring of needs in Kittery's Admiralty Village.

. The streets are a broken up mess and need repairs.Please re-pave from Manson Avenue & throughout the Village. And when will Kittery residents have town supplied trash removal of household trash?

thank you..

..Suzy Courage Johnson (Suzanne)

(Cromwell Street Kittery, Maine USA)
