**Subject:** Edible Maine Seaweed Products could replace Lobsters here.  
**Date:** Thursday, November 30, 2023 4:58:26 PM

---

TO The Council and Public -

It would be wonderful for one of Maine's "Edible Seaweed" companies to replace Warren's Lobsters after it's torn down. Edible seaweeds, especially Maine types are nutritious, tasty Seaplant food made into many delicious forms, which does not take the life of a living sentient creature like lobsters. Encourage Edible Seaweed stores or seaweed harvesting companies here in Kittery and join the future with peace, compassion, and better health for humans and all sea creature life.
