---

Hi there,

I wanted to weigh in on the proposed fowl ordinance. I am not in favor of passing more restrictions on land owners which can be dealt with by existing noise and nuisance regulations.

Furthermore, my property is zoned as rural residential, and in keeping with the entire concept of having rural zoning, I do not believe this proposed ordinance should apply to rural properties at all regardless of size. what would be the point of having rural zoning if we are subject to the same rules as urban lots?

Please record my opposition to the proposed fowl ordinance.

Thank you,

Gable Rhodes
