Dear Town Council,

Please consider the following for the public hearing on Title 10 -- Cutts Island Lane Traffic Safety.

The change of making Cutts Island Lane a stop sign versus a yield sign makes sense.

However, I'd like to know more about the reasoning for creating a stop sign on Chauncey Creek at the Cutts Island Lane interaction. How will this stop sign "improve safety overall for traffic in the area"? What data is available to support this claim?

Thanks,
Brian Early
