Public Forum Kittery Foreside

Kittery Foreside Land Use, Parking, and Traffic Circulation Study

Public Forum

June 15, 2017

6:00 – 7:30 pm

Traip Academy Library

Building on the momentum of the Foreside Forums, the Comprehensive Plan, and other studies, the Town of Kittery, with support from MaineDOT and the Kittery Area Comprehensive Transportation System (KACTS), is undertaking a Kittery Foreside Land Use, Parking, and Traffic Study. The goal of this Study is to determine a reasonable and palatable build-out scenario to use as a model to conclude what land use regulations, traffic patterns, bicycle and pedestrian accommodations, and parking resources are necessary to support and sustain future growth while not diminishing community character and residential qualities.

The Town has retained TY Lin International and MRLD Landscape Architecture + Urbanism to work with the community to develop a vision for the future of the Foreside and then make specific mobility, urban design, and zoning recommendations to implement the desired type, scale, and distribution of growth.

The Public Forum is an opportunity for the community to engage in user-friendly planning exercises, providing feedback to the Town and the project team on a range of issues including parking, traffic, land use, open space, economic development, and community character.
